

LOW - VOLTAGE PENDANTS

Akova Pendant

DESCRIPTION

Inspired by mid-century design, the Akova pendant light from Tech Lighting elevates the simple sphere into an elegant contemporary statement. Distinctly divided into three unified regions, each fixture features an upper metal housing available in three on-trend finishes that is briefly separated from a beautiful lower glass diffuser by a complementary decorative metal band. At just 7in in diameter, this petite pendant light can be used as accent lighting on Tech Lighting Monorail over a kitchen island or hung in odd-numbered clusters at varying heights in a contemporary living or dining space. Includes 14 watt, 640 delivered lumen, 2700K LED module. Fixture provided with six feet of field-cutttable cable. Dimmable with low-voltage electronic or magnetic dimmer (based on transformer).

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system. For use on T~TRAK, order FreeJack version and T~TRAK FreeJack Connector (sold separately).

WEIGHT

3.9lb / 1.77kg ±

aged brass /
bright brass
