Description: Cubix LED Chandelier brings volume and constructive interest to Modern space. Arrayed in precisely interconnected relationships, these suspended cubes are joined to each other by a shared leg on each frame. With each cube set at one of four vertical positions to the next, the construction allows for expansive horizontal and vertical arrays across the plane and height of a space. If a minimal height is desired, learn how low profile Cubix Surface expands the utility and aesthetic application of the Cubix family.
