

15PRD600SS

PROFESSIONAL SERIES 2-IN-1

The Professional Series 2-In-1 Transformer provides one distinct model designed for unique applications where two separate 300-Watt circuits (zones) and control options are located within the same housing.

FEATURES

- 2 separate sets of multi-tap output – 12-V, 13-V, 14-V, 15-V on each circuit
- 600-Watt total power and 2, independently controlled 300-Watt transformers for 2 separate scenes
- 2 independent receptacles for pluggable photocells for multiple on/off options
- 2 independent receptacles for pluggable timers
- Limited lifetime warranty
