

With its unassuming minimalist profile, The Vex outdoor LED wall sconce features up and down lighting and delivers a wide range of optical control and illumination options in a unique and deceptively simple design. Independent, up and down beam angels from 10° - 120° are achieved with simple tool-free adjustment. Beams can be set symmetric or asymmetric in both directions and are lockable. Angle markers ensure consistent and precise aiming and adjustment from fixture to fixture. Vex is ideal for indoor or outdoor accent lighting, ambient and/or way-finding applications where beam angle is critical and/or being used to add dramatic effects.
